Title

AI-POWERED WEBSITE CREATING USING PROMPT ENGINEERING

Name: Mehak Tariq

Roll.no: SU92-BSITM-F26-013

Section: BS IT 1A

Website Topic: Bakery Website

Prompt given to ChatGPT: Give me a prompt on Bakery website

***Final Prompt*:**

Create a beautiful, modern, and fully responsive bakery website named **"Sweet Crumbs Bakery."** Use a warm, elegant design with pastel pink, cream, and chocolate-brown colors.

Website Features:

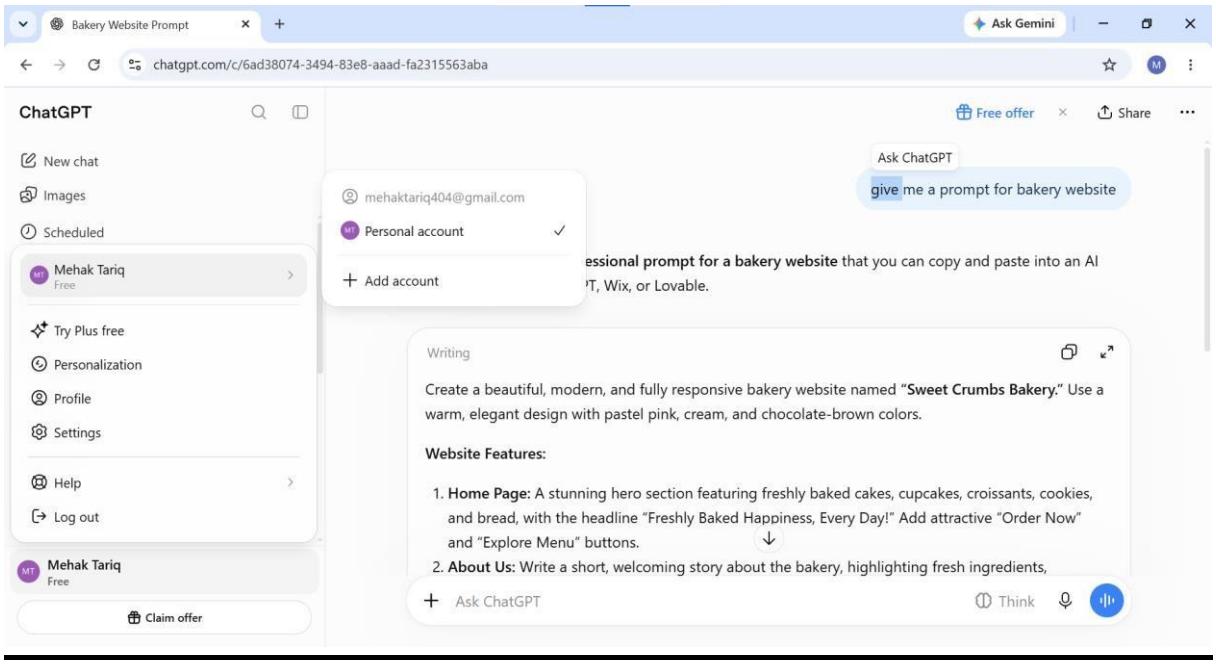

1. **Home Page:** A stunning hero section featuring freshly baked cakes, cupcakes, croissants, cookies, and bread, with the headline "Freshly Baked Happiness, Every Day!" Add attractive "Order Now" and "Explore Menu" buttons.
2. **About Us:** Write a short, welcoming story about the bakery, highlighting fresh ingredients, handmade products, and a passion for baking.
3. **Our Menu:** Display beautiful product cards for cakes, cupcakes, cookies, brownies, donuts, and fresh bread. Each card should include a product image, name, price, short description, and an "Add to Cart" button.
4. **Special Offers:** Add a colorful section for discounts, birthday cake deals, and seasonal bakery specials.

5. **Online Ordering:** Create a shopping cart where customers can add products, change quantities, remove items, and view the total price.
6. **Customer Reviews:** Show attractive customer testimonials with star ratings.
7. **Gallery:** Display high-quality images of beautifully decorated cakes, pastries, and bakery interiors.
8. **Contact Us:** Include the bakery address, phone number, opening hours, contact form, and WhatsApp order button.
9. **Footer:** Add social media links, quick navigation, and a newsletter subscription field.

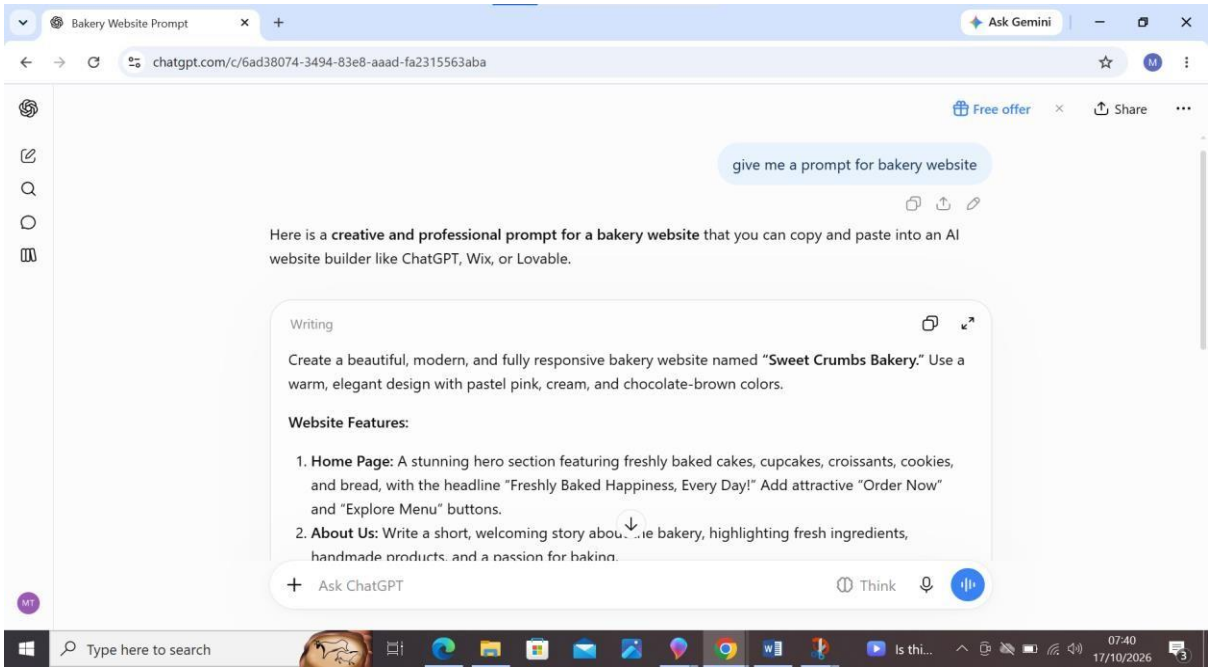

Design Requirements: Use beautiful food photography, rounded product cards, elegant fonts, subtle animations, smooth scrolling, hover effects, and a clean layout. Make the website mobile-friendly, visually appealing, easy to navigate, and suitable for a real bakery business.

Use sample bakery products and prices in Pakistani rupees (PKR). Ensure buttons and shopping cart interactions work properly. Create a polished, premium-looking website that makes visitors want to order delicious baked goods.
